Final Exam Checklist

Names in Group:

- Anusha Kondapalli
- Shilpa Poloju

#	Item	Completed	Possible	Earned
1	Database created	✔	5	5
2	Collection created	✔	5	5
3	50 Definitions in collection	✖	15	5
4	Json formatted correctly (named correctly)	✔	15	15
5	Quality of definitions was good.	✖	20	10
-	TOTALS		60	35
-			**GRADE**:	**66**

Comments:
141 words in the database. 3 instances for each word. The quality of your definitions was very poor and not correct. For example:

```
{"word" : "Atomicity", "definition" : "The number of atoms in a
molecule of a gas." }
```

is not even a real database definition, its a chemistry definition.
